4

MAINTENANCE SERVICE

PROFILE

WE ARE EXPERTS IN:

- Production of road marking materials
- Production of road marking machinery
- Research and implementation of new technologies in road marking materials and equipment production
- Civil and road construction
- Commercial and residential real estate
- Mechanized earthwork of any complexity
- Asphalt road paving and road marking application
- Installation of culverts on highways and landscaping

WHY DO CLIENTS CHOOSE US?

1

PRODUCTION CAPACITY

We just need two days to produce enough materials to satisfy annual demand for a city of 1,000,000 people

2

COMPREHENSIVE APPROACH

Wide range of services tailored to the client needs

3

PROMPT MAINTENANCE SERVICE

24/7 technical support

4

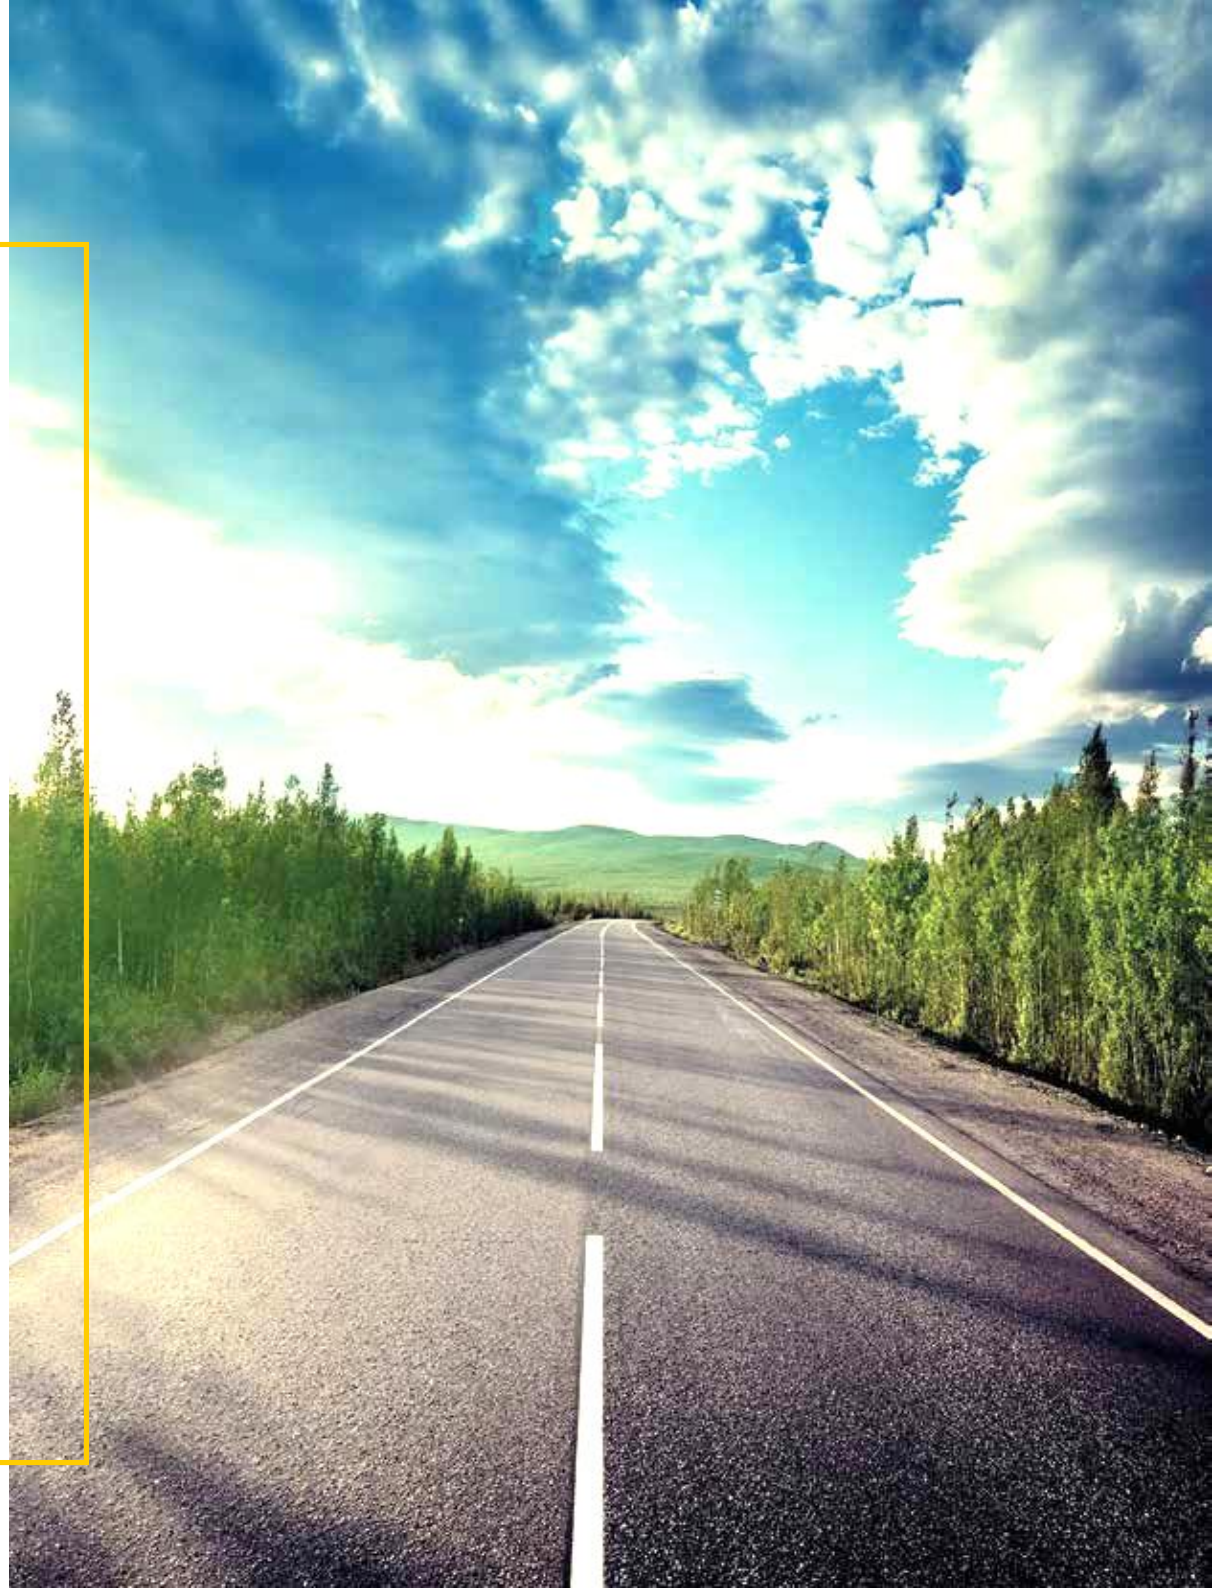

EXPERTISE AND GUARANTEES

Our extensive expertise helps us successfully complete projects of any complexity in various fields

5

CUTTING-EDGE SOLUTIONS

In-house R&D labs

SALES GEOGRAPHY

WE HAVE EARNED CUSTOMER
TRUST NOT ONLY IN BELARUS
AND RUSSIA BUT FAR BEYOND

EUROPE

- Bulgaria
- Poland
- Spain
- Croatia
- Germany
- Hungary
- Switzerland
- Lithuania
- Latvia
- Estonia

ADAPT MATERIALS
FOR ALL ROAD
SURFACE TYPES**

HOW WE ACHIEVE OUR OBJECTIVES

- In-depth study of the weather conditions and road specifics
- Multi-level in-process product control
- High-tech products

RANGE OF PRODUCTS

**OUR GOAL IS SAFE AND
HIGH-QUALITY ROADS!**

1

ROAD MARKING MATERIALS

Thermoplastic
Cold plastic
Paint
Glass beads

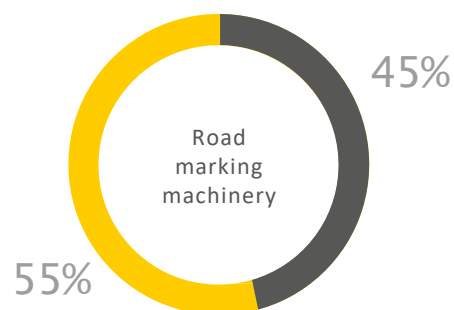

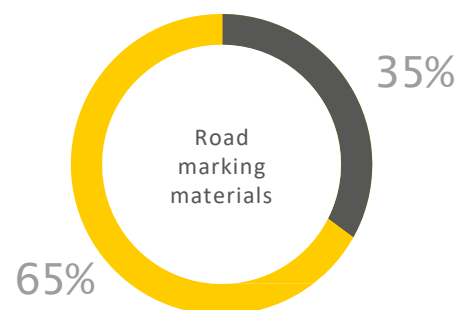

2

ROAD MARKING MACHINERY

For plastic
For paint
For thermoplastic
Universal machines
Auxiliary machines
Landscaping and road construction

PRODUCTION CAPACITY

OUR MARKET SHARE IN RUSSIA

- We have launched and actively develop a small-batch order service through our online store.
- We respond quickly to any customers' requests
- We launched a new micro glass bead production in the city of Roslavl (Smolensk region, Russia) in 2017.

WE CONSTANTLY DEVELOP
AND IMPROVE OUR
PRODUCTION

2

DAYS

Time required to produce the annual demand in materials for a city of 1,000,000 people

> 60 000

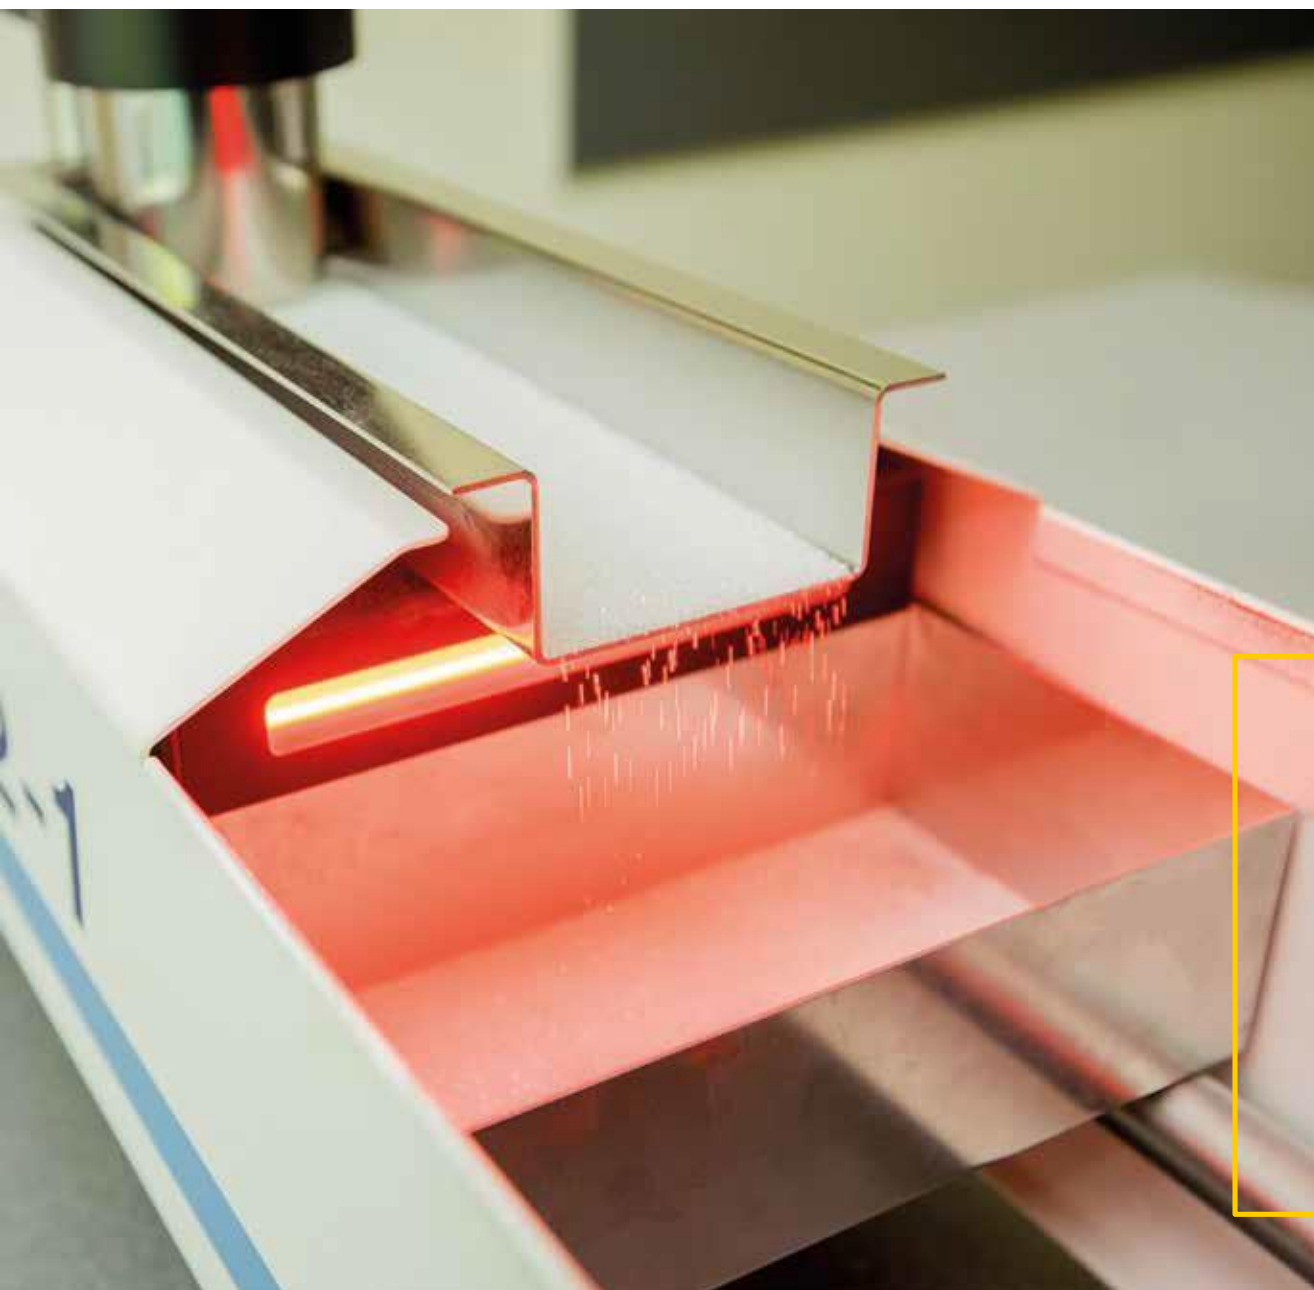

TONS OF MATERIALS

for road marking produced annually

> 50

MATERIALS

for various coatings are proposed today

GLASS BEAD PRODUCTION

JV STEKLOSFERA LLC OFFERS THE FOLLOWING MICRO GLASS BEAD TYPES:

Size grades 0-250 microns
Produced by crushing semi-white sheet glass according to technical conditions (TU BY 809001003.002-2018)

Glass beads are used with road marking materials application

Increase light reflection on the road in the dark

ADDITIONAL PRODUCTS

GROUND GLASS OR GLASS POWDER IS A DRY WHITE POWDER

This versatile product can be widely
used in basic construction works

JV STEKLOSFERA LLC OFFERS THE FOLLOWING TYPES:

- Ground glass /
Glass powder, size grades 0-120 microns
- Ground glass /
Glass powder, size grades 0-150 microns

Produced by crushing semi-white sheet glass
according to technical conditions (TU BY
809001003.002-2018)

LABORATORY

LAB FUNCTIONS

1

Verify that tests are correct and complete. Test results are accurate, reliable and objective and can be safely trusted

2

Sample raw materials, components, and paint for testing

3

Ensure confidentiality and safety of test results

4

Participate in inter-laboratory comparisons to verify testing laboratory accreditation

WE ARE CONFIDENT THAT OUR QUALITY MEETS APPLICABLE REGULATIONS AND TECHNICAL STANDARDS

Since 2000, all our products have been tested in our accredited in-house testing laboratory.

Road marking materials are tested for compliance with STB ISO 9001 and TR TS 014/2011.

The number of annual quality tests for compliance with three standards:

- Over 25,000 for paint
- Approximately 10,000 for cold plastic
- Over 35,000 for thermoplastic
- Almost 300 for glass beads

ROAD MARKING MACHINERY

OVER 30 MODELS: FROM SMALL HAND-PUSH MACHINES
TO HIGH-PERFORMANCE HIGHWAY MACHINES

1 ROAD MARKING MACHINERY

- Paint
- Thermoplastic
(smooth, structured, dots, spray)
- Cold plastic
(smooth, structured, dots, spray)
- Hand-push road marking machines
(STiM, Graco)

RELIABLE, AUTOMATED, ADVANCED EQUIPMENT
FOR YOUR WORK

ALL MACHINERY MEETS THE HIGHEST ROAD MARKING MACHINE PRODUCTION
STANDARDS AND HAS ISO CERTIFIED

2 APPLICATION

- City streets
- Motorways / Federal
highways
- Narrow streets
- Parking lots
- Airports

HIGH PRODUCTION PERFORMANCE

- Cooperation with the world
leading component
manufacturers
- Automated control of all road
marking processes
- Support for 10
languages and road
marking types to comply
with 10 national
standards
- Online road marking
statistics monitoring and
road marking machinery
location tracking
- Road marking
application speed up
to 25 km/h
- Proprietary technologies and
algorithms for re-striping
- Full operator control over
material consumption and
movement speed
- High-tech equipment and
advanced production
technologies
- Customized solutions
for each client

ROAD MARKING MACHINERY MAINTENANCE SERVICE

1

EASY SOLUTION TO ANY PROBLEM!

Our experienced staff continuously provides full maintenance service for road marking machines (RMM) not only in Belarus and Russia, but also in the CIS countries, the EU, and the Ukraine.

2

WE WORK TO ADD SOME VALUE TO YOUR BUSINESS

Every client is offered a variety of programmes and special offers for the purchase of materials, RMM, spare parts, service maintenance, components, etc.

ROAD MARKING MACHINERY MAINTENANCE SERVICE

R&D AND MAINTENANCE SERVICE DEPARTMENT: 100% GUARANTEED

- Customized approach
- Work of any complexity
- Special offers and promotions for services
- Convenient service schedule
- Flexible payment terms
- Wide range of spare parts
- Wide range of RMM accessories
- Quality control and warranty for all types of services

PROFESSIONAL MAINTENANCE AND REPAIR IN THE SHORTEST POSSIBLE TIME

OUR SERVICES:

- After-sales service
- Selection, manufacture, and supply/sale management of spare parts, materials, and related products for RMM routine maintenance
- Major repairs including repairs of components and assemblies
- Renovation/rehabilitation of machines and assemblies
- Electrical works
- Checking and inspection
- Routine maintenance
- Cleaning and washing
- Fastening
- Lubrication and filling
- Testing
- Staff training in RMM operation

EQUIPMENT RENTAL

RENTING IS A FAST AND EASY WAY TO GET HIGH-QUALITY EQUIPMENT YOU NEED FOR YOUR JOB

STiM has all types of road marking equipment available to rent for a required period on beneficial terms

YOUR RENTAL BENEFITS

1 FREE INSURANCE

2 FREE MAINTENANCE SERVICE

ROAD MARKING APPLICATION

OUR EXPERTISE

WE ARE PROUD TO HAVE PARTICIPATED
IN PREPARATION TO NUMEROUS
LARGE-SCALE INTERNATIONAL EVENTS

- The 2010 OSCE Summit in Astana
- The 2011 and 2012 UEFA European Football Championships in Lvov
- The 2013 Universiade in Kazan
- The 2014 IIHF Ice Hockey World Championship in Minsk
- The 2017 FIFA Confederations Cup in Kazan and Samara
- The 2018 FIFA World Cup in Kazan and Samara

OUR EXPERTISE IS PROVED WITH THE SKILLED
WORKING WITH ALL TYPES OF MATERIALS
ON MAJOR RUSSIAN HIGHWAYS

- M-1 Belarus
- M-3 Ukraine
- M-4 Don
- M-7 Volga
- M-8 Kholmogory
- M-13 Bryansk-Novozybkov to Belarusian border
- M-20 St. Petersburg-Nevel to Belarusian border
- Regional highways in 7 Russian regions (R-204 Tyumen-Omsk, R-524 Omsk-Novosibirsk etc.)

JV BSK LLC: A REAL EXPERT IN ROAD CONSTRUCTION

PROFILE

- Mechanized earthwork of any complexity
- Asphalt road paving
- Asphalt concrete surface milling
- Culvert installation on highways
- Landscaping (asphalt road paving, slab paving)
- Road marking application
- Production of all types of asphalt concrete mixes
- Production of all concrete grades

ROAD CONSTRUCTION

ADDITIONAL SERVICES

- Information support
- Training for construction business units
- Procurement support to road marking teams on various projects with any deadlines and conditions

EACH PROJECT, WE
PARTICIPATE IN, WE
GUARANTEE THE HIGH
QUALITY AND
FULFILLMENT OF TERMS
AND OBLIGATIONS

MAJOR PROJECTS

SOME OF OUR MAJOR PROJECTS

1

ROAD MARKING MATERIAL
COMPONENT SHOP,
UNITARY COMPANY STIM

Type of operations: asphalt concrete
road paving

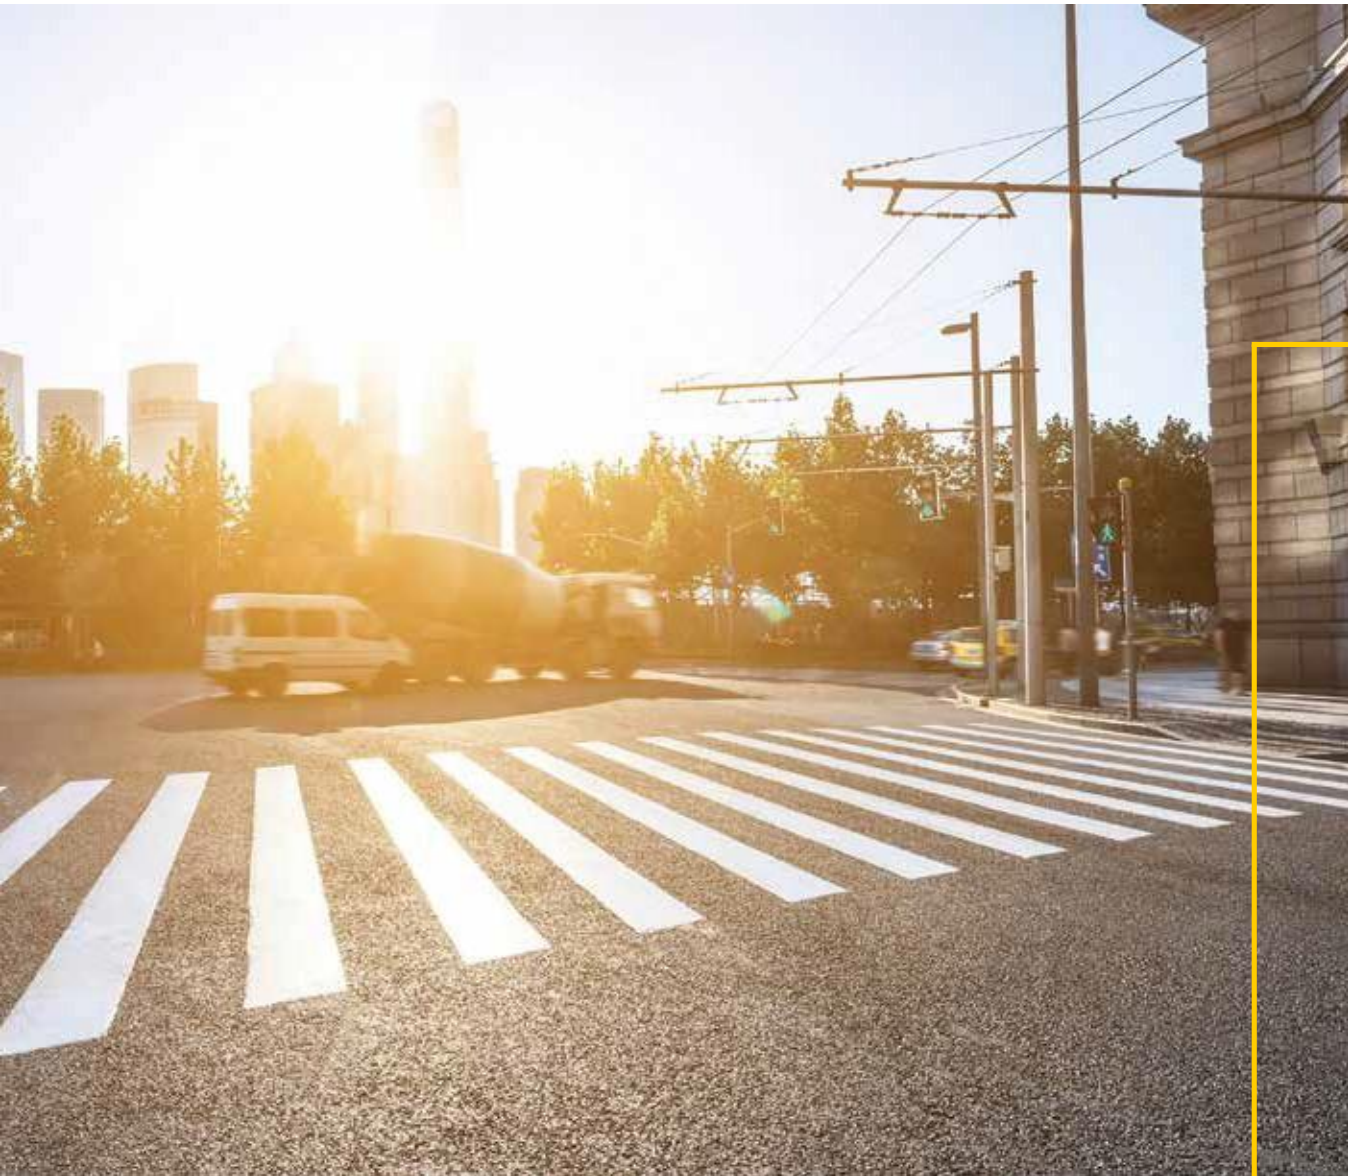

Year: 2013

2

SERVICE AREA AT KOZLOVICH-2
BORDER CROSSING TERMINAL

Type of operations: paving of roadways, platforms,
and sidewalks with asphalt concrete and slabs

Years: 2013-2015
